Test smoke detectors + carbon monoxide alarms.

Label boxes that aren't urgent.
Don't pressure yourself to unpack everything at once.

Introduce yourself to neighbors *(it pays off)*.

SEASONAL HOME MAINTENANCE

- Replace HVAC filters every 1–3 months
- Test smoke + CO detectors every 6 months; replace batteries annually
- Check gutters in fall; clear before winter
- Flush water heater annually
- Schedule HVAC tune-up before summer and winter

SENSITIVE DOCUMENTS?
